

English

This term our text in English is 'Man on the Moon'. We will be looking at description, instruction writing and writing our own recounts.

Topic

In our History topic, we will learn about the Apollo 11 mission to the moon with a focus on Neil Armstrong and his life.

Science

This term we are learning about Feeding and Exercise. We will be looking at keeping healthy and basic human needs. Within this topic, we will also think about how we could stay healthy in space.

Maths

Maths will start with Number and Place Value - knowing about our number system and how numbers are made. We will then be applying this knowledge to problems.

You can help your child by practising their 2, 3, 5 and 10 times tables.

Blast Off!

Is there extra-terrestrial life?

Art

This term, we will be looking closely at images of space and making our own space paintings using both paint, pastels and crayons. We will also be designing our own space lunches. We hope you will come and enjoy our work at the Art Gallery.

PSHE

Across the school we follow the PSHE scheme 'Jigsaw.' Our first topic is 'Being Me in My World'.

We will also be looking at the new Ark Castledown values and how they apply to us.

Things to Remember

- PE kits need to be in school every day due to possible changes in timetables.
- Please support us and your child by reading with them every night. Sharing a book and discussing the story with an adult is hugely beneficial to your child.
