

Ark Castledown Primary Academy

School Council November 2017

Agenda

- Welcome
- Introductions
- Purpose of the School Council
- Points to consider -

During our first meeting the school council had the opportunity to consider several points for school improvement. The areas that we will be focusing on as agenda items over the next 2 terms will be as follows –

1. **The impact of Good to be Green** and the schools new behaviour policy
2. **How best to improve the playground areas**

The council came with many ideas to add to the above including the suggestion of an extra water fountain to be installed in the playground.

Each class will send their school representative to the meetings with feedback and ideas that we will discuss and action if appropriate to further impact on school improvement and allow the pupil voice at Ark Castledown to be one that is heard.

As we meet to discuss these items, minutes from those meetings will be posted onto our school website.

If you have any items you wish the school council to consider please email the office at the school and we will include these in our upcoming meetings.
