Summer!

Topic

- The summer solstice takes place on the 21st June. Find out about it and what happens.
- Over the years the summer holiday has changed for people. Find out about holidays in the past and how they are different to holidays now.
- Create a brochure to encourage people to visit Hastings. Think about all the things that Hastings has to offer and why people would want to visit in the summer.
- In different places around the world not everywhere has their summer at the same time. Can you find out which countries have a different summer to us and why?

Science

This week we are looking carefully at nature..

Take a hoop, circle outside and place it somewhere natural, for example on the grass, soil. Take a moment to look really carefully at all the things that you can see inside your hoop. Carefully, draw what you can see and Now, use books or the Internet to identify and label everything you drew.

Computing

Normally in summer the weather is warmer and sun safety is important. Find out about sun safety and create a poster to educate someone. Use Purple Mash to create your poster.

Don't forget to save it so we

Writing

Create your own summer smoothie, ice cream or lemonade. Write a set of instructions so that other people can make it too!

Research and write about a summer destination you would love to visit one day. Why would you like to go there?

Maths

Solve this...

10 234 punnets of strawberries were sold at Wimbledon. If each punnet cost £2.80, how much money was taken for strawberries?

PE

Keep fit using these ideas:

- Create your own fitness workout. Think about the sort of exercises you enjoy doing. Look at YouTube to give yourself some ideas.
- Joe Wicks 9am every Monday, Wednesday and Saturday on YouTube
- Look on Facebook for Mr Henham's challenges

Art

- Watch the sunset one evening and recreate the colours you see in your own painting.
- Sunflowers are a flower we see in summer. Create your own piece of artwork of sunflowers. It could be a painting, collage, craft or model.

Consider this...

Discuss with a friend or someone at home,. Do you think as time goes on our summers will continue to be hot or will the weather and temperature change? Why do you think this?
