

Year 6 Home Learning Menu

Space!

Topic

- Watch the moon landing
- Interview your parents or grandparents to see what they know about the moon landing.
- Research the life of Neil Armstrong and write his biography
- Explore space using this website <http://www.bbc.co.uk/future/bspoke/20140304-how-big-is-space-interactive/>
- Bake a cake or biscuits and decorate them to look like planets
- Watch this interview with astronaut Tim Peake <https://www.bbc.co.uk/bitesize/topics/zdrrd2p/articles/z822hv4>

Science

- Create a poster that explains why the sun appears to move through the sky towards the horizon.
- Learn more about space and the solar system using this website <https://www.bbc.co.uk/bitesize/articles/zk7fy9q>

Computing

Use 2Animate on Purple Mash to create your own space themed animation.

Remember to save it so we can see your work!

Writing

Look at Oak Academy's website each day for your English lesson. Make sure you have a pencil and some paper ready!

<https://www.thenational.academy/online-classroom>

Maths

Go to Oak Academy's website for your daily Maths lesson. Just use the subjects tab at the top to find your year group and turn your Maths brains on!

<https://www.thenational.academy/online-classroom>

PE

- Keep fit using these ideas:
- build an obstacle course for you and your family
 - Joe Wicks 9am every morning on YouTube
 - Cosmic Yoga on YouTube
 - Look on Facebook for Mr Henham's challenges

Art

- Make your own solar system mobile
- Design and make an object that would be useful for an astronaut to take into space
- Create your own space scene using different materials and textures

Consider this...

Discuss with a friend or adult what the benefits of space exploration are for humans. Do you both agree that it is a positive? Do you think there is life on other planets?
